

Parker Rappleye

Full-Stack Developer

parker.rappleye1@gmail.com

About me

Aspiring software developer with a foundation in full-stack development from the University of Utah's coding bootcamp. Experienced in building web applications using modern development stacks and passionate about creating intuitive, efficient user experiences.

Experience

Projects

- Mine-Sweep: A minesweeper game that saves user scores and themes.
- Dev-Loop: A blog platform for developers to discuss coding topics.
- 5-Day Weather: A weather app providing a five-day forecast using real-time APIs.
- J.A.T.E. (Just Another Text Editor): A PWA for versatile text input and offline functionality.
- Note-Taker: An efficient note-taking app for creating and managing notes.
- Schedule Planner: A scheduling tool to help users effectively plan their day.

Professional Experience

- Warehouse/Logistics/Retail/food Roles (Various Employers)
 - Demonstrated reliability and adaptability in fast-paced environments.
 - Developed strong communication skills and a commitment to excellent customer service.
